About ME

- B.Tech CSE student with a passion for web development.
- Focused on building user-friendly web applications.
- Eager to learn and contribute to tech projects.

PROJECTS

Flipkart Homepage Clone

Technologies Used: HTML, CSS, JavaScript

- Designed and developed a responsive clone of the Flipkart homepage, replicating the layout and features.
- Focused on creating a seamless navigation experience with a product section and search bar.
- Implemented hover effects and interactive elements to enhance user experience.

Amazon Homepage Clone

Technologies Used: HTML, CSS, JavaScript

- Created a functional clone of the Amazon homepage with a similar structure and layout.
- Worked on the header, footer, and product display areas for a clean and organized UI.
- Focused on responsiveness to ensure the site works well across different screen sizes.

E-Commerce Website(Ongoing)

Technologies Used: HTML, CSS, JavaScript

- Currently developing a full-fledged e-commerce website, focusing on building a user-friendly interface and shopping experience.
- Implementing features like product listings, dynamic filters, and a shopping cart.
- Working on front-end optimization to ensure the site is fast, responsive, and visually appealing.

Employee Workload Analysis using Excel

Tools Used: Microsoft Excel (Pivot Tables, Lookups, Charts)

- Created a functional clone of the Amazon homepage with a similar structure and layout.
- Worked on the header, footer, and product display areas for a clean and organized UI.
- Focused on responsiveness to ensure the site works well across different screen sizes.
